TRW

Collaboration Within Departments With World-Class User Experience

TRW Automotive, headquartered in Livonia, Michigan was an American global supplier of automotive systems, modules and components to automotive original equipment manufacturers (OEMs) and related aftermarkets.

NEED

TRW's Global SAP team needed a Portal for

- Monitoring SAP uptime,
- Project Management & Collaboration,
- Knowledge Management.
- Had to adhere to global design standards.

SUCCESS FACTORS

- Old SharePoint portal had complex UI
- Was not encouraging use & collaboration
- Was not integrated to SAP for monitoring
- No Knowledge Repository
